BYAC Training 2025

Wellington College Prep (formally known as Eagle House School),
Crowthorne Road, Sandhurst GU47 8PH

Rolling Drop Off Arrangements

1. Drive through main entrance* and follow the road into the school site
2. Upon reaching the original school house, turn right
3. Then turn left after the newly built 'glass' building
4. Follow this road up and around to the left
5. Drive towards the chapel on the left and drop-off your child with a member of the team. There is no need to park, simply drive into the rolling drop-off zone (painted white lines will guide you), staff will open your car doors and help your child out. Another member of staff will then walk groups of children into the sports hall.
6. Once your child is safely out of the car you can drive off and exit the school site. (for safeguarding reasons WCP would prefer parents left the site during the training session.)

***If the entrance barrier is down, use the call button to speak with security who will lift the barrier for you.**

If you need to speak with a member of the team, please park your car and bring your child over and drop-off in person. Staff cannot engage in lengthy conversations in the rolling drop-off area, as this will cause traffic to back up.
